MADE IN FLORIM

FLORIM È CERTIFICATA B CORP

FLORIM IS B CORP CERTIFIED

Guardiamo al business come una forza positiva in grado di generare profitto e allo stesso tempo creare un impatto virtuoso sulle persone e sull'ambiente. Da sempre.

Le nostre scelte, giorno dopo giorno, ci hanno portato a migliorare il nostro modo di fare impresa.

We conceive the business as a positive force able to generate profits and at the same time create a virtuous impact on people and the environment. Since forever.

Our choices, day after day, have led us to improve our way of doing business.

COSA SIGNIFICA ESSERE B CORP?

Ci siamo misurati con i più alti standard di **performance sociale e ambientale** e dopo un lungo e rigoroso processo di verifica siamo diventati B Corp.

Le aziende che riescono a ottenere questa certificazione sono le più evolute al mondo in termini di impatto positivo sia sociale che ambientale.

Costituiscono un movimento globale di 'Purpose Driven Businesses' che ha l'obiettivo di diffondere un nuovo **paradigma economico**, che vede le imprese come protagoniste nel **rigenerare la società**.

Certified
B
Corporation

Guarda il video "Essere sostenibili è una scelta quotidiana" con i volti di alcune delle "persone Florim" che ogni giorno contribuiscono a rendere l'azienda sempre più responsabile.

Watch the video "Being sustainable is a daily choice" with the faces of some of the "Florim people" who contribute to making the company even more responsible, every day.

WHAT DOES IT MEAN TO BE B CORP?

We lived with the **highest social and environmental performance standards**, and after a long and scrupulous verification process, we became **B Corp**.

Companies that succeed in obtaining this certification are the most evolved in the world in terms of their positive social and environmental impact.

They constitute a global movement of 'Purpose Driven Businesses' whose aim is to diffuse a **new economic paradigm**, whereby companies are the drivers of **social regeneration**.

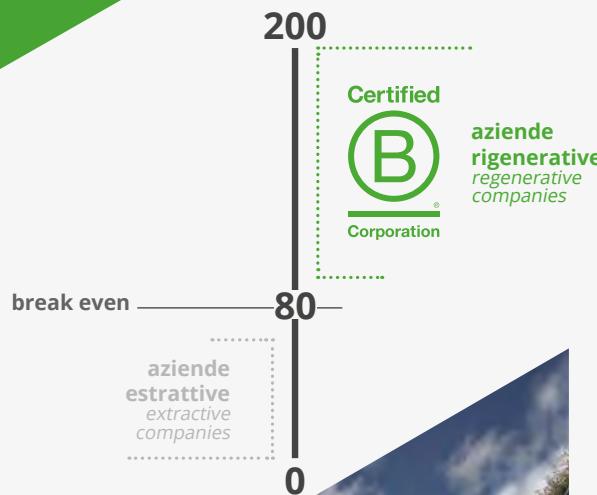

BUSINESS RIGENERATIVO

È in corso un **cambiamento culturale** epocale di cui siamo orgogliosi di essere parte.
Uno dei principi fondamentali di tutte le B Corp è quello di adottare un business rigenerativo che si contrappone a quello estrattivo.

Rigenerare significa non solo diminuire l'impatto sulla natura e sull'ambiente che ci circonda, ma addirittura produrre effetti positivi, creando valore condiviso nella società e rigenerando la biosfera.

Diventano B Corp solo quelle aziende che misurano il loro impatto complessivo attraverso il Benefit Impact Assessment (BIA) superando il punteggio di 80 (in una scala da 0 a 200) ed entrando così in una élite di imprese **rigenerative**. Chi non supera questa soglia viene considerata **azienda estrattiva** ovvero per funzionare consuma risorse economiche, sociali e ambientali superiori di quanto sia in grado di generare come output.

REGENERATIVE BUSINESS

An historical **cultural shift** is under way, of which we are proud to be a part.
One of the underlying principles of all B Corps is the adoption of a regenerative business model as opposed to an extractive one.

Regenerating means not only reducing the impact of business on our surrounding nature and environment, but also producing **positive effects**, creating shared value in society and regenerating the biosphere.

Only those companies that measure their overall impact through the Benefit Impact Assessment (BIA) exceeding the score of 80 points can be certified as B Corp, joining an elite of **regenerative** companies. Anyone who does not exceed this threshold is considered an **extractive company** or, in order to function, they consume higher economic, social and environmental resources than they are able to generate as output.

IL PUNTEGGIO DI FLORIM

Il punteggio conseguito da Florim Italia è di 98,1 punti e il consolidato, che comprende la consociata americana, è di 90,9 punti. Così il Gruppo Florim rientra tra le 3.700 B Corp al mondo.

Sono oltre 140.000 le aziende che stanno cercando di ottenere la certificazione, nel rispetto di **severissimi standard di trasparenza e sostenibilità**.

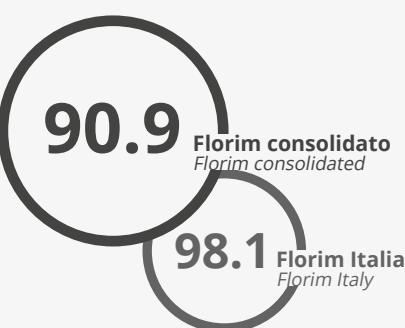

Solo il 3% riesce a superare l'iter di verifica imposto da **B Lab**, ente certificatore di origine americana che oggi opera a livello globale.

FLORIM'S SCORE

Florim Italia score is 98.1 points and the consolidated, which includes the American subsidiary, is 90.9 points. Florim Group is now one of the 3,700 B Corps throughout the world.

More than 140,000 companies are currently seeking to obtain the certification **in compliance with the strictest transparency and sustainability standards**.

Only 3% manage to pass the verification process implemented by **B Lab**, the US certifying body that currently operates on a global scale.

Небольшие несовершенства, в случае их наличия, являются характерными особенностями изделия, связанными с производственным процессом. Следует придерживаться инструкций, приведенных в каталоге и на упаковке.
MOVIMENTAZIONE HANDLING MANUTENTION TRANSPORT UND HANDHABUNG DESPLAZAMIENTO ПЕРЕМЕЩЕНИЕ	La movimentazione delle lastre può essere fatta con l'aiuto di appositi telai a ventosa./The handling can be done by using specific frames with suction cups./Pour la manutention des dalles, utiliser des systèmes à ventouses faits expressément à cet effet./Die Platten können mit Hilfe eines Heberahmens mit Saugtellern transportiert werden./El desplazamiento de las placas se puede llevar a cabo con la ayuda de bastidores dotados de ventosas./Плиты могут перемещаться, используя специальные рамы с присосками.
TAGLIO E FORO CUTTING AND DRILLING DÉCOUPE ET TROU SCHNEIDEN UND BOHREN CORTE Y ORIFICIO РЕЗКА И ОТВЕРСТИЕ	Appoggiare la lastra su piano di appoggio pulito e planare. Tagli e fori possono essere effettuati con idonee attrezature, incidendo la superficie./Rest the ceramic panel on a clean, flat surface. Cuts and holes may be made with suitable equipment, by cutting through the surface./Déposer la dalle sur un plan d'appui propre et plat. Découper et trous peuvent être effectués à l'aide d'outils adaptés, en entaillant la surface./Die Platte auf eine saubere und gerade Fläche legen. Schnitte und Bohrungen können mit geeignetem Werkzeug durch Einschneiden der Oberfläche erfolgen./Arope la losa sobre un piano limpio y plano. Los cortes y orificios se pueden realizar con herramientas adecuadas, incidiendo la superficie./Положить плитку на чистую и плоскую опорную поверхность. Разрезы и отверстия можно делать при помощи подходящих инструментов путем выполнения надреза на поверхности плитки.
STUCCATURA GROUTING RÉALISATION DES JOINTS VERFUGEN REJUNTADO ЗАТИРКА	Utilizzabili sigillanti cementizi o epoxidici. Ogni residuo di stucco deve essere rimosso prima del suo indurimento con acqua e spugna non abrasiva in quanto l'uso di prodotti zédi o pulitori per residui epoxidici è fortemente consigliato./Cement and/or epoxy sealants may be used. Any grout residue must be removed before it hardens, using water and a non-abrasive sponge./The use of acid products or cleaning products for epoxy residues is strongly advised against./Il est possible d'utiliser des agents d'étanchéité à base de ciment ou d'époxy. Tout résidu d'enduit doit être éliminé avant qu'il ne durcisse à l'aide d'une éponge non abrasive et d'eau étant donné que l'utilisation de produits acides ou de nettoyeurs pour résidus d'époxy est fortement déconseillée./Es können Beton- oder Epoxidharzklebstoffe verwendet werden. Alle Rückstände der Spachtelmasse müssen vor dem Verhärten entfernt werden und zwar mit Wasser und nicht abrasivem Schwamm, da von säurehaltigen Produkten oder Reinigern für Epoxidharzstande dringend abgeraten wird./Se pueden utilizar selladores de cemento o epoxidicos. Los eventuales residuos de estuco se deben quitar antes de su endurecimiento, utilizando agua y esponja no abrasiva: se desaconseja vivamente el uso de productos ácidos o pulidores para residuos epoxidicos./Для заделки швов могут использоваться цементные и эпоксидные затирки. Необходимо удалить любые остатки затирочной смеси до их затвердевания при помощи воды и неабразивной губки, так как использование кислотных растворов или очистителей для остатков эпоксидных затирок настоятельно не рекомендуется.
PULIZIA QUOTIDIANA DAILY MAINTENANCE ENTRETIEN QUOTIDIEN UNTERHALTSREINIGUNG LIMPIEZA COTIDIANA ЕЖЕДНЕВНАЯ ОЧИСТКА	Utilizzare esclusivamente detergenti neutri e/o acqua, pulendo con straccio in microfibra o spugna morbida e risciacquando adeguatamente la superficie. Non utilizzare solventi (alcol e simili) né spugne abrasive./Use only neutral detergents and/or water, cleaning the surface with a microfibre cloth or soft sponge and rinsing the surface appropriately./Utiliser exclusivement des produits d'entretien neutres et/ou de l'eau, nettoyer à l'aide d'un chiffon en microfibres ou d'une éponge douce et rincer correctement la surface./Ausschließlich neutrale Reinigungsmittel und/oder Wasser verwenden, mit einem Mikrofaserlappen oder einem weichen Schwamm reinigen und die Fläche gründlich nachspülen./Utilizar detergentes neutros y/o agua y limpiar con trapos de microfibra o esponjas suaves. Se pueden utilizar productos ácidos antical siempre y cuando, tras su aplicación, se aclare con agua la superficie de inmediato. Evítense el uso de esponjas abrasivas y de disolventes (como alcohol o similares)./Использовать только нейтральные моющие средства и/или воду. Поверхность следует очищать при помощи тряпки или губки из микрофибры и ополаскивать ее надлежащим образом.

Avvertenze per la posa e pulizia

Caratteristiche del prodotto: Gli articoli SHADES 01-02-03-04 di Neutra 6.0 sono prodotti mediante un nuovo sistema produttivo che non prevede la cottura ad alte temperature come le piastrelle tradizionali. Questa tecnologia grazie ad un processo produttivo di qualità, in parte ancora artigianale, permette di raggiungere risultati estetici e cromatici di altissimo livello dove sfumature e leggere variazioni cromatiche sono da considerare unicità del prodotto. Utilizzare tali articoli solo per rivestire pareti interne agli edifici.

Avvertenze per la posa del materiale: Nella movimentazione evitare il contatto con materiali abrasivi e lo strofinamento con altre lastre o con il piano di lavoro. Non appoggiare sulla superficie utensili o altro materiale che potrebbero danneggiare il prodotto. Per il taglio del materiale incidere la superficie con taglierina per gres porcellanato, poi spezzare il decoro con il diamante dello strumento in dotazione (in alternativa usare apposita pinza troncatrice per gres porcellanato). Per ottenere un buon risultato, non staccare mai la lama dalla lastra durante l'intera operazione. Altri metodi di taglio sono sconsigliati in quanto potrebbero frastagliare la decorazione ai bordi o rompere le esagoni che compongono la lastra. Proteggere i bordi delle esagoni prima di stuccatura con normale scotch di carta. Sigillare le fughe con stucchi preferibilmente cementizi; dopo la stuccatura rimuovere immediatamente eventuali residui utilizzando una spugna morbida ed acqua calda, evitando in qualsiasi caso l'uso di acidi o remover. Non utilizzare prodotti a base di silicone acetico per la sigillatura di infissi, docce o sanitari alla superficie ceramica (utilizzando in alternativa prodotti a natura neutra).

Pulizia del materiale: Pulire con panno morbido utilizzando solo acqua o detergenti neutri evitando alcool, acetone, detergenti acidi, basici e a base di pasta abrasiva. Per la pulizia dello sporco ostinato utilizzare prodotti sgrassanti reperibili in tutti i supermercati perché non a base alcalina.

Instructions for laying and cleaning

Product characteristics: The SHADES 01-02-03-04 items in the Neutra 6.0 collection are manufactured with a new production system that does not require high-temperature firing as in the case of traditional tiles. With its top-quality production process, parts of which are still carried out by hand, this technology enables very high-end results to be obtained in terms of aesthetics and colour, where shading and slight colour variations in should be viewed as unique product features. These items are to be used only for tiling interior walls in buildings.

Laying Instructions: When handling, avoid contact with abrasive materials and scraping against other tile slabs or against the work surface. Do not rest on the tile-surface tools or other materials that may damage the product. To cut the tile, score the surface with a porcelain tile cutter and then snap the decor tile with the diamond on the tool supplied (alternatively, use tile-cutting pliers suitable for porcelain tiles). To obtain good results, never lift the blade from the slab for the entire operation. It is not advisable to use other cutting methods, since they may create a jagged edge on the decoration or break the hexagons comprising the slab. Before grouting, protect the edges of the hexagons with ordinary adhesive paper tape. Seal the joints with grout, preferably cement-based; after grouting remove any residues immediately using a soft sponge and warm water, avoiding at all costs the use of acids or sealant removers. Do not use products based on acetic silicone for sealing windows and doors, showers or bathroom fixtures to the ceramic surface; use neutral-type products instead.

Cleaning: Clean with a soft cloth, using only water or neutral detergents; do not use alcohol, acetone, acid or basic detergents or those based on abrasive paste. To clean persistent dirt use degreasing products to be found in any supermarket, provided they are not alkaline-based.

Instructions pour la pose et le nettoyage

Caractéristiques du produit: Les articles SHADES 01-02-03-04 de Neutra 6.0 ont été soumis à un nouveau système de production qui ne prévoit pas la cuisson à de hautes températures comme pour les carreaux traditionnels. Cette technologie, grâce à un processus de production de qualité, en partie encore artisanal, permet d'obtenir des résultats esthétiques et chromatiques du plus haut niveau où les nuances et les légères variations chromatiques sont des caractéristiques uniques du produit. N'utiliser ces articles que pour revêtir les murs intérieurs des bâtiments.

Instructions pour la pose du matériel: Lors de la manipulation, éviter le contact avec des matériaux abrasifs ainsi que le frottement avec d'autres dalles ou la surface de travail. Ne pas poser sur la surface du produit des outils ou autre matériel qui pourraient l'endommager. Découper la surface du matériau à l'aide d'un coupe-carreaux, puis rompre le décor avec le diamant de l'instrument fourni (utiliser sinon une pince coupante pour gres cérame). Pour obtenir un bon résultat, ne jamais éloigner la lame de la dalle durant toute l'opération. Toute autre méthode de découpe est déconseillée du fait qu'elle pourrait ébrécher les bords du décor ou rompre les hexagones de la dalle. Protéger les bords des hexagones avant le jointement avec du papier cache-adhésif ordinaire. Sceller les joints avec du mortier, de préférence à base de ciment ; après le jointement, éliminer immédiatement tout résidu à l'aide d'une éponge souple et de l'eau chaude en évitant l'utilisation d'acides ou de décapants. Ne pas utiliser de produits à base de silicone acétique pour sceller les cadres, les douches ou les sanitaires sur la surface céramique (utiliser plutôt des produits neutres).

Nettoyage du matériel: Nettoyer avec un chiffon doux en utilisant uniquement de l'eau ou des détergents neutres et en évitant l'alcool, l'acétone, les détergents acides, basiques et abrasifs en pâte. Pour éliminer les résidus tenaces, utiliser des produits dégraissant acides que l'on trouve dans tous les supermarchés.

Hinweise zur Verlegung und Reinigung

Eigenschaften des Produkts:

Die Artikel SHADES 01-02-03-04 von Neutra 6.0 werden mit einem neuen Produktionssystem hergestellt, das keinen Brand mit hohen Temperaturen, wie bei traditionellen Fliesen, vorsieht. Mit dieser Technologie können, dank eines teilweise noch handwerklich stattfindenden hochwertigen Produktionsverfahrens, ästhetische und farbliche Ergebnisse von allerhöchstem Niveau erreicht werden, bei denen Abschattungen und leichte Farbvariationen als Einzigartigkeit des Produktes zu betrachten sind. Diese Artikel dürfen nur zur Verkleidung von Gebäudeinnenwänden verwendet werden.

Hinweise zur Verlegung des Materials: Bei der Handhabung ist der Kontakt mit abrasiven Materialien, das Gegeneinanderreiben mit anderen Platten bzw. das Reiben auf der Arbeitsfläche zu vermeiden. Es dürfen keine Werkzeuge oder sonstigen Materialien auf die Oberfläche gelegt werden, die das Produkt beschädigen könnten. Zum Schneiden des Materials ist mit einem Fliesenknifer für Feinsteinzeug die Oberfläche anzurühren und daraufhin das Dekor mit dem Diamant des mitgelieferten Werkzeugs zu brechen (oder mit einer Fliesenbrechzange für Feinsteinzeug). Die Klinge während des gesamten Vorganges niemals von der Platte entfernen, damit ein gutes Ergebnis erzielt werden kann. Von anderen Schneidemethoden wird abgeraten, da sie die Dekoration an den Kanten auszacken oder die Sechsecke, aus denen sich die Platte zusammensetzt, brechen könnten. Die Kanten der Sechsecke sind vor der Ausfugung mit normalem Krepp-papier-Klebeband zu schützen. Die Fugen vorzugsweise mit Zementar-Fugenmasse versiegeln; nach der Ausfugung sind eventuelle Rückstände unverzüglich mit einem weichen Schwamm und Warmwasser zu entfernen, wobei unbedingt immer die Verwendung von Säuren oder Removern zu vermeiden ist. Zum Versiegeln von Fenstern und Türen, Duschen oder sanitären Einrichtungen an keramischen Oberflächen dürfen keine Produkte auf Acetatsilikonbasis verwendet werden (sondern nur neutrale Produkte).

Reinigung des Materials: Mit einem weichen Tuch reinigen und dazu nur Wasser oder neutrale Reinigungsmittel verwenden, dabei Alkohol, Aceton, säurehaltige bzw. basische Reinigungsmittel und solche auf Basis von Schleifpaste vermeiden, Zur Entfernung von hartnäckigem Schmutz sind in allen Supermärkten erhältliche Entfetter zu verwenden, mit Ausnahme solche auf Alkalibasis.

Advertencias para la colocación y limpieza

Características del producto: Los artículos SHADES 01-02-03-04 de Neutra 6.0 son elaborados mediante un nuevo sistema de producción que no prevé la cocción a altas temperaturas, como las baldosas tradicionales. Gracias a un proceso de producción de alta calidad, parcialmente artesanal, esta tecnología permite alcanzar resultados estéticos y cromáticos de altísimo nivel, en los que los matices y las ligeras variaciones cromáticas se deben considerar parte de la unicidad del producto. Utilice estos artículos solo para revestir paredes interiores.

Advertencias para la colocación del material: Durante el desplazamiento, evite el contacto con materiales abrasivos y el rozamiento con otras losas o con el plano de trabajo. No apoye sobre la superficie herramientas u otros elementos que puedan dañar el producto. Para cortar el material, incida la superficie con una cortadora para gres porcelánico y, a continuación, quíbre la decoración con el diamante del instrumento suministrado (en alternativa, utilice una pinza para gres porcelánico). Para obtener un buen resultado, no separe la cuchilla de la losa durante toda la operación. Se desaconseja recurrir a otros métodos de corte, ya que podrían mellinar la decoración en los bordes o romper los hexágonos que componen la losa. Antes del estucado, proteja los bordes de los hexágonos con cinta adhesiva de papel. Selle las juntas preferiblemente con estucos de cemento; después del estucado, quite inmediatamente los residuos, utilizando una esponja suave y agua caliente; evite en todo caso el uso de ácidos o solventes. No utilice productos a base de silicona acética para el sellado de puertas, ventanas, duchas o sanitarios a la superficie cerámica (en alternativa, utilice productos neutros).

Limpieza del material: Limpie con un paño suave, utilizando solo agua o detergentes neutros. Evite el uso de alcohol, acetona, detergentes ácidos, alcalinos y a base de pasta abrasiva. Para la limpia de la suciedad persistente, utilice alguno de los productos desengrasantes disponibles en todos los supermercados, siempre que no sean de base alcalina.

Меры предосторожности при укладке и чистке

Характеристики изделия: Артикулы SHADES 01-02-03-04 коллекции Neutra 6.0 выпускаются с применением новой производственной системы, не предусматривающей высокотемпературный обжиг, который используется для традиционной плитки. Благодаря применению качественного производственного процесса, частично артисанального характера, эта технология позволяет достичь эстетических и цветовых результатов, высочайшего уровня, в которых оттенки и легкие цветовые вариации являются единственностью продукта. Используйте эти изделия только для облицовки внутренних стен. Меры предосторожности при укладке и чистке: избегайте контакта с абразивными материалами, а также трение плиты друг с другом и с рабочей поверхностью. Не кладите на поверхность инструмент и другие материалы, которые способны повредить изделие. Для резки материала сначала нарежьте поверхность плиткорезом для керамогранита, после чего разломите декор алмазом прилагающегося инструмента (в качестве альтернативы используйте кусачки для керамогранита). Для получения хорошего результата края плиты не должны быть фрезованы или заточены, так как они могут повредить кромки декора или же расколоть шестигранные элементы, из которых состоит плитка. Перед затиркой защитите кромки шестигранных элементов бумажным малярным скотчем. Для заполнения швов желательно использовать цементные затирки. После заполнения швов немедленно удалите возможные остатки при помощи мягкой губки и теплой воды, ни в коем случае нельзя использовать кислотные средства.

Чистка материала: Чистите материал мягкой тряпкой, используя лишь воду или нейтральные моющие средства, не допуская применения спирта, ацетона, кислотных или щелочных моющих средств и средств на основе абразивной пасты. Для удаления стойких загрязнений используйте обезжиривающие средства, продающиеся во всех супермаркетах, но не на щелочной основе.

Per un effetto ottimale della posa, florim suggerisce di mantenere 2 mm di fuga per pose monoformato e 3 mm per combinare formati misti / For optimal installation results, florim recommends maintaining a joint of 2 mm 1/12" for single format installations and 3 mm 1/8" to combine mixed formats / Pour réaliser une pose parfaite, florim suggère de maintenir 2 mm de joint pour la pose des monoformats, et 3 mm pour les combinaisons de formats mixtes / Um einen optimalen effekt beim verlegen zu erzielen empfiehlt florim eine 2 mm fuge bei einformatigen verlegungen und 3 mm fuge bei formatkombinationen / Para lograr los máximos resultados en la posa del producto, florim aconseja 2 mm de junta en aplicaciones monoformato y 3 mm en combinaciones de formatos mixtos / Для оптимальной укладки "FLORIM" рекомендуется выдерживать зазор 2 мм для моноформата и 3 мм при смешанных форматах.

**V1
LOW**

Prodotto monocromatico.
The least amount of shade and texture variation.
Attainable in naturally fired clay products.
Produit monochromatique.
Einfarbiges produkt.
Producto monocromático.

**V2
MODERATE**

Prodotto con leggera variazione cromatica.
Light to moderate shade and texture variation within each carton.
Produit à légère variation chromatique.
Produkt mit leichter Farbnuance.
Producto con una pequeña variación cromática.

**V3
HIGH**

Prodotto con marcata variazione cromatica.
High shade texture variation within each carton.
Produit à variation chromatique accentuée.
Produkt mit ausgeprägter Farbnuance.
Producto con evidente variación cromática.

**V4
RANDOM**

Prodotto con forte variazione cromatica.
Very high shade and texture variation within each carton.
Produit à forte variation chromatique.
Produkt mit starker Farbnuance.
Producto con fuerte variación cromática.
